

Seattle Venues 5,000+ — Capacity Table

Oct 6, 2026 · @Kylie Au

21 Seattle-area venues clear 5,000 in at least one setup (one, Memorial Stadium, is closed until its 2027 rebuild); two of the app's likely defaults are stale. T-Mobile Park is now listed at **47,943** by the Mariners (MLB.com, March 2026), not 47,929 (a 2019 figure). Husky Stadium is now **72,132** per UW, not the 70,083 most sites still show.

Labels: *official* = the venue, team, owner or league publishes it. *reported* = a news outlet, Wikipedia or a ticketing listing. *estimated* = my figure where nothing is published. Coordinates marked ≈ are estimated from the street address; geocode them before shipping. Scope: King, Snohomish and Pierce counties plus the Gorge.

Venues, largest first

Sorted by each venue's largest official figure; where none exists, by the best reported one.

Where sources disagree

Use the official figure for the setup that night; fall back to the reported one only where nothing official exists.

Venue	Figures in circulation	Use	Why
Lumen Field	67,000 fixed / 68,000 seats (stadium PSA); 68,740 (Sounders, Wikipedia); 69,000; 72,000 expanded (PSA); "+5,000 for special events" (Sounders)	68,740 football; 37,722 MLS regular season; 72,000 for big concerts and expanded soccer	68,740 is the figure both the operator's partner club and the record books use. The PSA's "67,000/68,000" are rounded. 72,000 is the PSA's stated ceiling; the Sounders' "+5,000" would imply 73,740, so treat it as approximate. 69,000 has no source I could find.
Climate Pledge Arena	Hockey 17,100 / 17,151 / 17,200; basketball 18,100 / 18,200 / 18,300; concert 17,200 / 18,600	Hockey 17,100; basketball 18,300; end-stage concert 17,200; center-stage 18,600	The arena's own FAQ lists 17,100 / 18,300 / 17,200. The 18,100 basketball number is the 2021 opening figure. 18,600 comes from the architect and fits a center-stage show. 17,151 is Wikipedia's figure with no team source I could open; the 51-seat gap doesn't matter for friction.
T-Mobile Park	47,929 (Wikipedia 2019, most ticket sites); 47,943 (MLB.com, March 2026)	47,943	Most recent official source. The 14-seat difference is immaterial; change it only to stay current.

Venue	Figures in circulation	Use	Why
The Gorge	20,000; 27,000; 27,500	27,500	20,000 is the pre-expansion figure that ticketing blurbs still repeat. Live Nation's regional VP put it at "around 27,000" to the Seattle Times. Festivals may cap lower (Watershed: 25,000).
Husky Stadium	70,083; 70,138; 72,132	72,132	UW's current facility page. 70,138 was opening day 2013; 70,083 was 2014 on.
Tacoma Dome	21,000 max (official); 20,722 basketball; 15,000–23,000 concert claims	21,000 max; ~17,000 end-stage until the Dome confirms	Only the 1,000–21,000 range is official. Per-setup numbers come from low-quality sites and conflict.
Marymoor Live	5,000; 6,500	6,500 for 2023 on; 5,000 before	King County now lists 6,500. 5,000 was the AEG-era figure; press kept repeating it in 2025, so the exact switch year is unconfirmed.
Angel of the Winds Arena	Hockey 8,149 / 8,513; up to 10,000	Hockey 8,149; concerts 9,000–10,000	8,149 has more sources; the arena publishes only "up to 10,000".
White River	20,000; 16,000	16,000	Live Nation cut it to 16,000 in 2015; older listings still say 20,000.

Near the line, left out

None of these reaches 5,000 in any published setup, but Funko Field has drawn 5,000+ on a single night and is worth a watch-list flag.

Venue	City	Capacity	Why it's out	Source
Funko Field at Everett Memorial Stadium (Everett Memorial Stadium until March 2019)	Everett	3,682 seats; 4,118 stated (reported)	Under the bar, but drew 5,189 on July 10, 2016. A replacement AquaSox stadium is being studied.	Baseball-Reference , Everett Herald
Starfire Sports Stadium	Tukwila	4,500 (reported)	Under the bar	Wikipedia
Sparks Stadium (PLU football)	Puyallup	3,500–4,500 (reported)	Under the bar; sources disagree	Wikipedia , D3football
Chateau Ste. Michelle amphitheatre	Woodinville	4,300 incl. lawn (official, every season 2008–2019)	Doesn't reach the bar	Ste. Michelle
ZooTunes, Woodland Park Zoo North Meadow	Seattle, Phinney Ridge	3,700 (reported)	Doesn't reach the bar	Wikipedia
Paramount Theatre	Seattle, downtown	2,807 seated; ~3,000 GA (reported)	Well under the bar	Wikipedia
Baker Stadium (Puget Sound football)	Tacoma	Not found; recent crowds 1,425–2,347 (reported box scores)	Almost certainly under; capacity unconfirmed	D3football

Seattle U plays most home games under 5,000 but moves some to Climate Pledge Arena; log those under the arena row. Emerald Downs (in the main table) is the same kind of case: average nights are ~3,000, big promotion nights 8,000–9,000.

Could not confirm

- **Husky Stadium:** the year capacity moved from 70,083 to 72,132. UW's page shows only the current figure.
- **Tacoma Dome:** per-setup counts (end-stage, center-stage, basketball). The Dome publishes only 1,000–21,000; the press room or booking office is the next stop.
- **T-Mobile Park and Lumen Field:** concert capacities. Neither venue publishes one.
- **Pacific Raceways:** the 30,000 figure is uncited; no official spectator count found.
- **Emerald Downs:** no published capacity; the table uses the 2023 peak crowd.
- **Everett Memorial Stadium (football side):** 12,000 is Wikipedia-only; the Everett School District doesn't publish one.
- **Evergreen Speedway:** 6,000 vs 7,500; neither from the fairgrounds itself.
- **Washington State Fair grandstand:** when it took the Umpqua Bank name (the concert series was Columbia Bank's through at least 2021).
- **Marymoor Live:** the year capacity rose from 5,000 to 6,500.
- **Seattle Center grounds:** no fixed festival capacity; Bumbershoot numbers are attendance estimates.
- **Old Memorial Stadium:** pre-demolition capacity (2016–2025).
- **Gorge campground:** the 5,000-site count comes from a weak source.
- **Coordinates marked ≈:** estimated from addresses, not surveyed. Geocode before shipping.
